	Benchmark Assessments Utilizing formative measures, students in grades K-8 will be assessed in the areas of Reading and Math on the alternate content standards (Essential Elements) at their appropriate grade level. Due to the nature and severity of the disabilities and complex communication needs of students grades K-8 at Lapeer ISD, standardized benchmark assessments should not be considered a valid and reliable measure of student growth. Therefore, these measures will not be the basis for the district's educational goals. All students with disabilities participate in the MI-Access assessment (Supported Independence or Participation and will not be able to participate in the benchmark assessments administered by their local school district. The scores for the assessments below will be included in the district report of the educational goal as required by Public Act 149.
